

SPECIFICATIONS - MAVERICK 400 OWNER SAILAWAY – 1 MASTER CABIN + 2 GUEST CABINS

HULL & APPENDAGES

- The broad flat hulls are a composite sandwich construction, using hand laid stitched fabrics with Balsa as the core. PVC foam is an option.
- All resins are approved by Lloyds, SABS and ISO 9002.
- All chop strand mat and stitched quad axle mat are approved by Lloyds, SABS and ISO 9002.
- Balanced spade rudders and sacrificial low profile slim line keel foils are unique.
- International epoxy primer is applied below the water line to protect GRP against osmosis – followed by 2 coats of International anti-fouling.
- All sea-cocks are double clamped below waterline.
- The bow incorporates two collision bulkheads, one facing forward and the other protecting below waterline collisions.

DECK

- Deck laminate specifications are the same as the hull.
- Amidships boarding steps, both to port & starboard, includes chain plates with mid ship cleats and life line gates.
- Push pit & pulpit seats.
- 2x large trampolines with cross beam & catwalk & unique compression post and easy to operate anchor system.
- Electric anchor windlass with foot switches on foredeck and optional remote control with chain counter at helm station.
- Deck surface has a molded non-slip finish surrounded by toe rail.
- 2x Fresh water tank fillers.
- 2x Forward cleats, 2x amidships spring cleats (incorporated into chain plates), 2x aft cleats.
- Double guard wires with stanchions & bases.

EQUIPMENT & FITTINGS

- Winches are all two speed and self tailing.
- 2x Size 46 primary winches.
- 2x Size 40 secondary winches.
- 1x Size 40 winch for roller furler and dingy davit.
- 1x Size 40 mast winch.
- 20kg Delta anchor with 50m 10mm galvanized chain.
- 10kg Dan forth anchor with 10m 10mm galvanized chain & 50m 14mm anchor warp spiced onto chain.
- 6 Cylindrical fenders.

- Mooring warps: 4 x 8m & 4 x 6m.

COACHROOF

- The coach roof incorporates a removable spray dodger as well as a skylight which allows direct sunlight into both the galley & saloon.
- Coach roof windows are made of tinted laminate glass.

BIMINI

- The hard top bimini, supported by robust, large diameter stainless steel pipes, allows access to the stack pack without obscuring the helmsman's view of the sails.
- The aft bimini section allows for installation of solar panels.

COCKPIT

- Treble doors with 6.5mm laminated clear glass link the saloon to the large 3.5m x 2.5m cockpit which has two tiers of seating.
- Treble sliding windows extend the serving tops from the galley.
- A cockpit locker can be converted to an ice box or even a fridge.
- The helmsman has special steering platform, ensuring all round visibility, a dedicated helmsman's seat as well as a designer dash board.
- Plenty of stowage lockers & self draining.
- Custom davits are fitted for easy launching and retrieving 3.0m to 3.6m dingy.
- The davits incorporate an aft seat/lounger.
- Cockpit cushions.
- As an option, soft zip-up panels in the bimini fully enclose the cockpit in foul weather or merely for privacy.

TRANSOM

- A swimming ladder on the port side doubles up as a safety gate, second ladder optional.
- Pressurized hot & cold water hand shower fitted on port transom.
- Diesel filling caps and shore power fitting.
- Stainless steel BBQ is an option.

SPECIFICATIONS - MAVERICK 400 OWNER SAILAWAY – 1 MASTER CABIN + 2 GUEST CABINS
